1. Introduction

This document is a code of practice governing the members of the South African Wireless Application Service Providers' Association (WASPA). It is binding on all members and contains accepted procedures to be followed in the event of a complaint lodged against any WASPA member.

This clause was introduced in version 3.2.

1.1. About WASPA

WASPA is an independent, non-profit organisation representing the interests of organisations providing mobile application services in South Africa. The Association aims to provide a neutral forum for members to address issues of common interest and interact with industry stakeholders, network operators and government bodies. WASPA aims to ensure that end-users receive world-class services and industry participants earn a fair return on their investments. The association was founded in August 2004.

Membership of WASPA is voluntary. Voting members are required to have an existing business relationship with one or more of the network operators. All members are required to accept the WASPA Code of Conduct and related procedures as binding.

This clause was introduced in version 3.2.

In version 4.3, the second paragraph was amended to accommodate non-voting members. Prior to this change, this paragraph stated: "Membership of WASPA is voluntary, with members required to have an existing business relationship with one or more of the network operators. Members are also required to accept the WASPA Code of Conduct and related procedures as binding."

1.2. Objectives of the Code of Conduct

The primary objective of the WASPA Code of Conduct is to ensure that members of the public can use mobile services with confidence, assured that they will be provided with accurate information about all services and the pricing associated with those services. The Code aims to equip customers and consumers with a mechanism for addressing any concerns or complaints relating to services provided by WASPA members, and a framework for impartial, fair and consistent evaluation and response to any complaints made.

The Code of Conduct also sets standards for advertising mobile application services, and includes a framework for the provision of adult services, to ensure adequate protection of children from potentially harmful content.

This clause was introduced in version 3.2.

1.3. Revisions to the Code of Conduct

In order to ensure that this Code of Conduct remains relevant in the face of constantly evolving technology, the provisions of the Code are reviewed regularly. The latest version of the WASPA Code of Conduct is always available on the organisation's web site, <http://www.waspa.org.za>.

This clause was introduced in version 3.2.

1.4. Scope of the Code

Unless otherwise specified, this Code of Conduct applies to all wireless application services accessed by a customer in South Africa, transmitted by a wireless application service provider and carried by a South African network operator.

Where the Code addresses services provided by members, it applies only to wireless application services provided by a WASP, and not to other types of services that the member may provide.

This clause was introduced in version 3.2.

1.5. Existing agreements with operators

As well as complying with this Code, WASPA members must also comply with any existing contracts and agreements they have with network operators.

This clause was introduced in version 3.2.

1.6. Applicability of the Code to non-members

Some companies may be required to comply with the WASPA code by virtue of a contract with one or more network operators and/or a contract with one or more voting WASPA members. In such cases, all clauses in the Code of Conduct and the *WASPA Advertising Rules* that are binding on WASPA members shall be deemed to be binding on those companies, irrespective of whether or not those companies are members of WASPA.

This clause was introduced in version 4.3.

1.7. Disclaimer

The members of WASPA, the WASPA Management Committee, all other WASPA Committees, the WASPA Secretariat, WASPA's employees and contractors, and Independent Adjudicators shall not be held liable for any consequences that may arise from the implementation of this Code of Conduct or for the failure to implement the Code. This Code of Conduct does not constitute legal advice, nor is it warranted as legal advice. All members are strongly advised to seek proper legal counsel.

This clause was introduced in version 4.3.

This clause was introduced in version 3.2.
Two words originally before "immediately" were deleted in version 4.3. Previous this clause read "...the member must, **where possible**, immediately suspend access..."

3.5.3. Members must co-operate with any content orders lawfully issued by enforcement authorities.

This clause was introduced in version 3.2.

3.6. Data protection

3.6.1. Members will take all reasonable measures to prevent unauthorised or unlawful access to, interception of, or interference with any data.

This clause was introduced in version 3.2.

3.7.1. Members will not provide any services or promotional material that:

- (a) contains a visual presentation of explicit violent sexual conduct, bestiality, incest or rape or extreme violence which constitutes incitement to cause harm;
- (b) results in any unreasonable invasion of privacy;
- (c) induces an unacceptable sense of fear or anxiety;
- (d) encourages or incites any person to engage in dangerous practices or to use harmful substances;
- (e) induces or promotes racial disharmony;
- (f) causes grave or widespread offence; or
- (g) debases, degrade or demeans.

This clause was introduced in version 3.2.

3.8. Number re-use

3.8.1. A service must not be replaced on the same number by another service that might give offence to or might be inappropriate for customers reasonably expecting the original service.

This clause was introduced in version 3.2.

3.9. Information providers

3.9.1. Members must bind any information provider with whom they contract for the provision of services to ensure that none of the services contravene the Code of Conduct or the Advertising Rules.

This clause was introduced in version 3.2.
In version 11.0, the last four words ("or the Advertising Rules") were added to make it clearer that the Advertising Rules are also binding on information providers.

3.9.2. Where any information provider that is not a WASPA member conducts any activity governed by the provisions of this Code, and makes use of the facilities of a WASPA member to do so, that member must ensure that the information provider is made fully aware of all relevant provisions of the Code and the member shall remain responsible and liable for any breach of the Code resulting from the actions or omissions of any such information provider.

In version 9.0, references to "service provider" were replaced with "**information provider**" and "vicariously liable" was replaced with "**liable**". The change to "information provider" was intended to link this clause specifically to the definition of information provider. The word "vicariously" was been removed due to concerns that that made this clause overly broad.

3.9.3. Notwithstanding clause 3.9.2, where an information provider makes use of a member's facilities for the sending of spam or fails to comply with the provisions of 5.1.10, the member shall not be liable for any such breach unless the member failed to take the reasonable measures contemplated and provided for in 5.3.1.

Interpretation notes

The following proactive and reactive steps should be considered examples of "reasonable steps".

Proactive

At least one of the following:

1. Get the IP to sign the WASPA template agreement.
2. Get the IP to sign up as an affiliate WASPA member.
3. Have a service agreement with the IP which binds the IP to the WASPA Code of Conduct.
4. Have demonstrable proof that SP informed the IP about WASPA Code of Conduct and related spam rules.

Reactive

1. Notify the IP of alleged breach.
2. Allow two working days for the IP to perform corrective action or provide proof of opt-in.
3. If no corrective action is taken by the IP, or no proof of opt-in is provided, then take appropriate steps against the IP and communicate the steps taken to WASPA.
4. Action sanctions imposed by an adjudicator on the IP, when relevant.

3.9.4. A WASPA member shall, by obtaining the information provider's signature on the WASPA template agreement, be deemed to have taken all reasonable steps to ensure that the information provider is fully aware of the terms of the WASPA Code of Conduct and this shall be considered as a mitigating factor for the WASPA member when determining the extent of any possible liability for the breach of the provisions of the WASPA Code of Conduct as a result of any act or omission by the information provider.

This clause was introduced as clause 3.9.3 in version 9.0.

The clause, and the associated template agreement, are intended to provide some guidance to aggregators in ensuring that their clients are aware of the WASPA Code of Conduct, as well as providing for this step to be a mitigating factor when reviewing complaints.

It was renumbered to 3.9.4 in version 11.0.

This clause was introduced in version 3.2.

This clause was introduced in version 3.2.

This clause was introduced in version 3.2.

4.1.5. Terms and conditions of members' services may not contain clauses that contradict the requirements of the WASPA Code of Conduct.

This clause was introduced in version 7.4. Previously, it was not a specific breach of the Code for a WASP to insert contradictory conditions in their terms and conditions. It would only have been a breach of the Code in such cases if the WASP exercised the contradictory clauses. This situation could have caused confusion for consumers, who might not be sure whether the WASPA Code applied if the SP's T&Cs claimed otherwise. This addition was intended to close this loophole.

4.1.6. Where a customer is asked to confirm that they have read the terms and conditions of a service by means of a tick-box, this may not be ticked by default, but must require the customer to specifically click on the box to tick it.

This clause was introduced in version 10.0, at the monitoring and testing team's request. Although it is not currently a requirement of the Code that customers be asked to specifically tick their acceptance of terms and conditions, where a SP asks them to do so, the customer should be required to take specific action to indicate their acceptance, and not have such acceptance registered by default.

4.1.7. Members must have a complaints procedure allowing their customers to lodge complaints regarding the services provided. Members must acknowledge receipt of complaints expeditiously, and must respond to any complaints within a reasonable period of time.

This clause was introduced as clause 4.1.5 in version 3.2.
It was renumbered to 4.1.6 in version 7.4.
It was renumbered to 4.1.7 in version 10.0.

4.1.8. Customer support must be easily available, and must not be limited to a medium that the customer is unlikely to have access to (for example, support should not be limited to email if a significant number of customers do not have access to email).

This clause was introduced as clause 4.1.6 in version 5.2, based on what had previously been clause 11.2.1: "Assistance, such as 'help' information, for subscription services must be easily available to customers, and must not be limited to a medium that the customer is unlikely to have access to."
Members were given until 2007-07-01 to comply with this clause.
It was renumbered to 4.1.7 in version 7.4.
It was renumbered to 4.1.8 in version 10.0.

4.1.9. Any telephonic support must be provided via a South African telephone number and must function effectively. Should the member be unable to provide immediate support, a customer should be provided with the ability to leave a message. Support numbers may not forward to full voice mailboxes.

This clause was introduced as clause 4.1.7 in version 5.2.
Members were given until 2007-07-01 to comply with this clause.
It was renumbered to 4.1.8 in version 7.4.
It was renumbered to 4.1.9 in version 10.0.

4.1.10. Customer support may not be provided via premium rated numbers, and may only be provided via standard-rate or VAS-rate numbers.

This clause was introduced as clause 4.1.8 in version 6.1.
It was renumbered to 4.1.9 in version 7.4.
It was renumbered to 4.1.10 in version 10.0.

4.1.11. Members undertake to inform their wireless application service customers that they are bound by this Code of Conduct. Members also undertake to make these customers aware of the WASPA complaints procedure and the mechanism for making a complaint, should any customer wish to do so.

This clause was introduced as clause 4.1.6 in version 3.2.
It was renumbered to 4.1.8 in version 5.2.
It was renumbered to 4.1.9 in version 6.1.
It was renumbered to 4.1.10 in version 7.4.
It was renumbered to 4.1.11 in version 10.0.

4.1.12. Members' web sites must include a link to the WASPA web site and/or this Code of Conduct.

This clause was introduced as clause 4.1.7 in version 3.2.
It was renumbered to 4.1.9 in version 5.2.
It was renumbered to 4.1.9 in version 6.1.
It was renumbered to 4.1.11 in version 7.4.
It was renumbered to 4.1.12 in version 10.0.

4.2. Privacy and confidentiality

4.2.1. WASPA and its members must respect the constitutional right of consumers to personal privacy and privacy of communications.

This clause was introduced in version 3.2.

4.2.2. Members must respect the confidentiality of customers' personal information and will not sell or distribute such information to any other party without the explicit consent of the customer, except where required to do so by law.

This clause was introduced in version 3.2.

4.3. Refunds

4.3.1. Any refunds provided by members to customers must be provided in a form acceptable to the customer. Refunds must be either in South African Rands or air-time useable on a South African mobile network.

This clause was introduced in version 7.4. See the explanatory note for clause 4.3.2 below. In version 10.0, the wording was amended from "in a form acceptable to the customer which must be either South African Rands" to its current form. This change was made to improve the clarity of this clause, to ensure that refunds must be provided in a form acceptable to the customer **and** in rands/air-time. Previously, it was possible for a refund to be provided in rands, but still be in a form unacceptable to the customer, for example in the form of a cheque from an unrelated and possibly suspicious company.

4.3.2. Refunds must not cause the customer to incur any bank charges, or alternatively must compensate the customer for any bank charges incurred.

This clause was introduced in version 7.4. This was to address the situation of SPs outside of South Africa posting refunds in foreign currency, and consequently causing customers to incur bank charges sometimes in excess of the value of the refund.

4.3.3. Refunds must not be unreasonably delayed.

This clause was introduced in version 7.4.
Interpretation notes for this clause: One calendar month would constitute an unreasonable delay.

5. Commercial and bulk messages

In version 11.6, this heading replaced "Commercial communications".

5.1. Sending of commercial messages

In version 11.6, this heading replaced "Sending of commercial communications".

5.1.1. All commercial messages must contain a valid originating number and/or the name or identifier of the message originator.

This clause was introduced in version 3.2.

5.1.2. Any message originator must have a facility to allow the recipient to remove his or herself from the message originator's direct marketing database, so as not to receive any further direct marketing messages from that message originator.

This clause was introduced in version 3.2.
In version 11.0 the words "direct marketing" were added (twice) to bring the Code in line with the the Protection of Personal Information Act.

5.1.3. For commercial messages, a recipient should be able to stop receiving messages from any service by replying with the word 'STOP'. If a reply could pertain to multiple services, either all services should be terminated, or the recipient should be given a choice of service to terminate. The reply 'STOP' procedure should be made clear to the recipient at the start of any messaging service, for example by including "reply STOP to opt out" in the first message sent. If it is not technically feasible for the recipient to reply to a specific message then clear instructions for unsubscribing must be included in the body of that message.

As originally introduced as clause 5.1.3 in version 3.2, this clause read simply: "Where feasible, customers should be able to unsubscribe from any subscription service using no more than two words, one of which must be 'STOP'."

This was amended in version 4.3 to read: "Where feasible, persons receiving commercial messages should be able to remove themselves from the database of a message originator using no more than two words, one of which must be 'STOP'."

It was renumbered to 5.1.4 in version 4.92 (switching places with the clause below) and redrafted entirely as follows: "Notwithstanding 5.1.3, for SMS and MMS communications: (a) A recipient should be able to stop receiving messages from any service by replying with the word 'STOP'. If a reply could pertain to multiple services, either all services should be terminated, or the recipient should be given a choice of service to terminate. The reply 'STOP' procedure must be included at the start of any messaging service, for example: "reply STOP to opt out". (b) Recipients of premium rate or non-replyable messages must have the option to opt out at a cost of R1 or less. This opt-out instruction must be included in every commercial premium rate or non-replyable message, for example. "sms STOP to 32xxx to opt out".

Members were given until 2007-08-01 to comply with this clause.

In version 6.1 it was amended with "must have the option to opt out at the lowest tariffed rate available (with the exception of reverse billed rates)" replacing "must have the option to opt out at a cost of R1 or less".

Members were given until 2008-10-01 to comply with this revised clause.

It was renumbered back to 5.1.3 in version 6.2 (again switching places with the clause below), and redrafted into its current form, minus the last sentence.

In version 7.4 the last sentence ("If it is not technically [...] body of that message") was added to accommodate cases where there are technical reasons that a customer cannot simply reply to a message. A specific example of this is when a SP inserts an alphanumeric description in the "From" field of the message, rather than a number to which a reply can be sent. However, at the time version 7.4 was ratified, modifying the "From" field in this way was only permitted on Cell C's network, and was prohibited by both Vodacom and MTN.

In version 11.0 the word "commercial" was inserted near the beginning of the clause. This was to add clarity, since "commercial communications" is specifically defined in the Code.

In version 11.6, the first few words "For commercial messages" replaced "For SMS and MMS commercial communications. This was because "SMS and MMS" were unnecessary words, given the definition of "commercial message".

5.1.4. For commercial messages, a message recipient must be able to opt out at the lowest tariffed rate available (with the exception of reverse billed rates). If replying 'STOP' as set out in 5.1.3 will result in a charge greater than the lowest tariffed rate available, then instructions for the lowest tariffed rate opt-out must be included in every message sent to the customer.

As originally introduced as clause 5.1.4 in version 3.2, this clause read simply: "Any mechanism for allowing a recipient to remove his or herself from a database may not be premium rated.

It was renumbered to 5.1.3 in version 4.92 (switching places with the clause above).

It was renumbered back to 5.1.4 in version 6.2 (again switching places with the clause above), and redrafted into its current form.

In version 11.6, the first few words "For commercial messages" replaced "For SMS and MMS communications. This was because "SMS and MMS" were unnecessary words, given the definition of "commercial message" and to make this clause mirror the wording of the preceding one.

5.1.5. The reply "STOP" or alternative opt-out procedure must be included in all direct marketing communications. A "STOP" reply in this instance will refer to all direct marketing communications from the message originator.

This clause was introduced in version 11.0, in order to bring the Code in-line with the Protection of Personal Information Act.

5.1.6. Non-commercial bulk SMS services (such as newsletters) must have a functional opt-out procedure consistent with that described in clause 5.1.3.

This clause was introduced in version 11.6 to prevent a lacuna in the Code which would have meant that newsletters did not require a functioning opt-out after the amendment of 5.1.4 above.

5.1.7. Notwithstanding clauses 5.1.3 and 5.1.6, members are not obliged to honour an opt out request for communications that are necessary for the conclusion or performance of a contract to which the recipient is a party.

This clause was introduced as clause 5.1.6 in version 11.0, in order to bring the Code in-line with the Protection of Personal Information Act.

It was renumbered to 5.1.7 in version 11.6, and "clause 5.1.3" expanded to "clauses 5.1.3 and 5.1.6".

5.1.8. Notwithstanding clauses 5.1.3 and 5.1.6, members are not obliged to honour an opt out request for communications required by law.

This clause was introduced in version 11.0, in order to bring the Code in-line with the Protection of Personal Information Act.

It was renumbered to 5.1.8 in version 11.6, and "clause 5.1.3" expanded to "clauses 5.1.3 and 5.1.6".

5.1.9. Once a recipient has opted out from a service, a message confirming the opt-out should be sent to that recipient. This message must reference the specific service that the recipient has opted-out from, and may not be a premium rated message.

This clause was introduced as clause 5.1.5 in version 5.7.

It was renumbered to 5.1.8 in version 11.0.

It was renumbered to 5.1.9 in version 11.6.

5.1.10. Where the words 'END', 'CANCEL', 'UNSUBSCRIBE' or 'QUIT' are used in place of 'STOP' in an opt-out request, the service provider must honour the opt-out request as if the word 'STOP' had been used.

This clause was introduced as clause 5.1.6 in version 5.7.

It was renumbered to 5.1.9 in version 11.0.

It was renumbered to 5.1.10 in version 11.6.

5.1.11. Upon request of the recipient of a direct marketing message, the message originator must, within a reasonable period of time, identify the source from which the recipient's personal information was obtained, and provide proof that the organisation supplying the originator with the recipient's contact information has the recipient's explicit consent to do so.

This clause was introduced as clause 5.1.5 in version 3.2 with the following text: "Upon request of the recipient, the message originator must, within a reasonable period of time, identify the source from which the recipient's personal information was obtained."

It was renumbered to 5.1.7 in version 5.7.

It was renumbered to 5.1.10 and amended to reflect the current wording in version 11.0, in order to bring the Code in-line with the Protection of Personal Information Act.

It was renumbered to 5.1.11 in version 11.6.

5.1.12. Direct marketing messages may not be sent on Sundays, public holidays, on Saturdays before 09:00 or after 13:00, or on all other days between 20:00 and 08:00, unless expressly agreed to in writing by the recipient.

This clause was introduced as clause 5.1.6 in version 3.2 with the following text: "Commercial communications may not be timed to be delivered between 20:00 and 06:00, unless explicitly agreed to by the recipient, or unless delivery during this period forms part of the up-front description of the service."

It was renumbered to 5.1.8 in version 5.7.

It was renumbered to 5.1.11 and rewritten in its current form in version 11.0, in order to bring the Code in-line with the Consumer Protection Act.

It was renumbered to 5.1.12 in version 11.6.

5.2. Identification of spam

5.2.1. Any commercial message is considered unsolicited (and hence spam) unless:

- (a) the recipient has requested the message;
- (b) the message recipient has a prior commercial relationship with the message originator and has been given a reasonable opportunity to object to direct marketing communications
 - (i) at the time when the information was collected; and
 - (ii) on the occasion of each communication with the recipient; or
- (c) the organisation supplying the originator with the recipient's contact information has the recipient's explicit consent to do so.

This clause was introduced in version 3.2.
In version 6.1 a definition of recent was added in parentheses "(within the last six months)".
In version 11.0, the first three words (which were "Any commercial message" were replaced with "Any direct marketing message". In addition, part (b) of this clause, which at that stage read "(b) the message recipient has a direct and recent (within the last six months) prior commercial relationship with the message originator and would reasonably expect to receive marketing communications from the originator; or" was replaced with the current wording. These changes were to bring the Code in-line with the Protection of Personal Information Act.

5.2.2. Any commercial message is considered unsolicited after a valid opt-out request.

This clause was introduced in version 11.0, in order to bring the Code in-line with the Protection of Personal Information Act.

5.2.3. WASPA, in conjunction with the network operators, will provide a mechanism for consumers to determine which message originator or wireless application service provider sent any unsolicited commercial message.

This clause was introduced as clause 5.2.2 in version 3.2.
It was renumbered to 5.2.3 in version 11.0.

5.3. Prevention of spam

5.3.1. Members will not send or promote the sending of spam and will take reasonable measures to ensure that their facilities are not used by others for this purpose.

This clause was introduced in version 3.2.

5.3.2. Members will provide a mechanism for dealing expeditiously with complaints about spam originating from their networks.

This clause was introduced in version 3.2.

6. Advertising and pricing

6.1. WASPA advertising rules

6.1.1. In addition to the provisions listed below all members are bound by the *WASPA Advertising Rules*, published as a separate document.

This clause was introduced in version 3.2.
It was amended in version 4.3. to refer to the "*WASPA Advertising Rules*" (instead of "*WASPA Advertising Guidelines*") which were published between version 3.2 and 4.3 of the Code.

6.1.2. The latest version of the *WASPA Advertising Rules* will always be available on the WASPA web site.

This clause was introduced in version 3.2.

It was amended in version 4.3. to refer to the "WASPA Advertising Rules" (instead of "WASPA Advertising Guidelines") which were published between version 3.2 and 4.3 of the Code.

6.1.3. In the case of any conflict between the *WASPA Advertising Rules* and the WASPA Code of Conduct, the Code of Conduct takes priority over the *Advertising Rules*.

This clause was introduced in version 7.0.

6.2. Pricing of services

6.2.1. All advertised prices must include VAT.

This clause was introduced in version 3.2.

6.2.2. All advertisements for services must include the full retail price of that service.

This clause was introduced in version 3.2.

6.2.3. Pricing must not contain any hidden costs. Where applicable, pricing for content services must include the cost of the content and indicate any bearer costs that may be associated with downloading, browsing or receiving that content.

This clause was introduced in version 3.2.

6.2.4. Pricing contained in an advertisement must not be misleading. If multiple communications are required to obtain content, then the advertised price must include the cost for all communications required for that transaction. A clear indication must always be given that more premium messages are required.

This clause was introduced in version 3.2.

6.2.5. The price for a premium rated service must be easily and clearly visible in all advertisements. The price must appear with all instances of the premium number display.

This clause was introduced in version 3.2.
It was amended in version 4.3. with "The price **must** appear" replacing "The price **should** appear".

6.2.6. Unless otherwise specified in the advertising guidelines, the name of the WASP or the information provider providing the service must appear in all advertisements for premium rated services.

This clause was introduced in version 3.2.

6.2.7. For menu-driven services such as USSD, the price for the service must be clearly stated at the top of the first page. Any additional costs associated with specific menu selections must be clearly indicated.

This clause was introduced in version 3.2.

6.2.8. Pricing on any promotional material must use one of the following generally accepted formats for prices in Rands: "Rx" or "Rx.xx".

This clause was introduced in version 5.2.
Members were given until 2007-08-01 to comply with this clause.

6.2.9. During any calendar month, if the total cost of any service exceeds R200 for that month:

(a) Where the WASP is in control of the billing (e.g. an OBS), a notification must be sent to the customer that they have reached this limit and a communication is required from the customer, confirming acceptance of any costs over this amount, prior to any additional costs being billed.

(b) Where the WASP is not in control of the billing (e.g. the customer sends an SMS to a premium rated number), the member must send a notification to the customer once they have reached this limit.

This clause was introduced in version 6.1, with an initial threshold of "R100".
Members were initially given until 2008-10-01 to comply with this clause, this was extended to 2008-11-01, and since this clause was amended before that date, the "R100" threshold never applied in practice.
The limit was amended to "R300" in version 6.2.
The same compliance date (2008-11-01) remained in place.
The limit was amended to "R200" in version 7.0.
Members were given until 2009-06-30 to comply with the amended threshold.

In version 9.0, the wording of part (a) was changed from: "Where the WASP is in control of the billing (e.g. an OBS), an additional communication is required from the customer, confirming acceptance of any costs over this amount, prior to any additional costs being billed." to its current form.
The change to the first sentence was intended to provide clearer wording for this clause.

6.2.10. During any calendar month, after the first threshold notification, when the total cost of any service reaches R400, and when it reaches any multiple of R200 thereafter, an additional notification must be sent to the customer notifying them of the total cost incurred for that service so far.

This clause was introduced in version 7.0.
Members were given until 2009-06-30 to comply with this clause.
In version 9.0, the words "after the first threshold notification" were added in order to clarify that the requirements of 6.2.10 apply only after 6.2.9 has been done.

6.2.11. The member providing the service must keep a record of the confirmation provided by the customer (for 6.2.9 (a)) or the notification sent to the customer (for 6.2.9 (b)).

This clause was introduced as clause 6.2.10 in version 6.1.
Members were given until 2008-10-01 to comply with this clause, this was extended to 2008-11-01.
It was renumbered to 6.2.11 in version 7.0.

6.2.12. For any transaction initiated via WAP, USSD, web-browsing, a link in an MMS or by an application:

- (a) If the transaction is billed at R10 or more, the member initiating this transaction must obtain specific confirmation from the customer and keep a record of such confirmation.
- (b) If the transaction is billed at less than R10, the price for the transaction must be clearly indicated as part of, or immediately next to, the link or option that will initiate the transaction and must be visible on the same screen as the link.
- (c) If the transaction is to initiate a subscription service, then the price and frequency of the service must be included directly in the text of the WAP link or immediately adjacent to it and must be visible on the same screen as the link.

This clause was introduced as clause 6.2.11 in version 6.1 without part (c) and with a short part (b).
Members were given until 2008-08-01 to comply with this clause.
It was renumbered to 6.2.12 in version 7.0, and the last portion of (b) ("and must be visible on the same screen as the link") and the whole of (c) were added.

6.2.13. A customer may enter into a contract with a WASPA member to opt-out of the reminders specified in clauses 6.2.9 and 6.2.10 for a specified service provided that:

- (a) Any such contract between the service provider and the customer is clear and easily understood.
- (b) The provisions in the contract which deal with opting out from reminders must be obvious to the customer and not hidden in the general terms and conditions or otherwise.

- (c) The contract contains a description of the service provided, the duration for which the service will be provided, the frequency and amount of any billing, and information on the mechanism the customer can use to terminate the service.
- (d) A copy of the contract is retained by the service provider.
- (e) A copy of the contract is made available to WASPA in the case of any dispute.
- (f) The contract must provide the customer with the ability to request the resumption of the reminders specified in clause 6.2.9 and 6.2.10.
- (g) This contract cannot be concluded via WAP, USSD, SMS or a web page.
- (h) This contract must be legal, must not be against public policy and must not limit the consumer's rights under any law.

This clause was introduced in version 7.4. There was demand from both WASPs and customers to be able to opt-out from the threshold reminders. This clause is intended to provide a mechanism for opting out, whilst preventing WASPs from abusing this possibility.

6.3. General provisions

6.3.1. For services such as MMS, that have specific handset requirements, advertisements must make it clear that the customer needs to have a compatible handset that has been correctly configured to use that service.

This clause was introduced in version 3.2.

6.3.2. For services which are likely to have a shelf-life of three months or more, a statement must be included in any advertisement that the information given is correct as at the date of publication, and that date must also be stated.

This clause was introduced in version 3.2.

6.3.3. Promotional material must not be of a nature that unduly encourages unauthorised calls or use of services.

This clause was introduced in version 3.2.

6.3.4. All advertising promoting content that is available on specific handsets only, must display "compatible handsets only" clearly and explicitly. For television advertising this warning must be placed prominently and not only in the terms and conditions for the entire duration of the commercial.

This clause was introduced in version 11.0 and was intended to bring the Code in-line with the Consumer Protection Act.

Interpretation note: "Compatible handsets" should be reasonably interpreted. If the content will work on the vast majority of handsets, but not on a ten-year old brick, then it probably isn't necessary to include this disclaimer. It is not necessary to specify a list of compatible handsets, just to include the "compatible handsets only" notice.

6.3.5. Content that is promoted in marketing campaigns, must be the same content that is delivered to or available to be retrieved by the customer's handset.

This clause was introduced in version 11.0 and was intended to bring the Code in-line with the Consumer Protection Act.

6.4. Use of a short code as a brand

6.4.1. Where a short code is used as a brand, there is no requirement to display pricing information next to the short code, provided there is no directly associated call to action.

This clause was introduced in version 5.7.

6.4.2. Where a short code is used as a brand and there is an associated call to action, the standard requirements for the display of pricing information are required, as set out in the *Advertising Rules*.

This clause was introduced in version 5.7.

6.5. Use of the word “free”

6.5.1. The keyword “free” or words with the same or similar meaning (in any language) may not be used for any service unless that service has no associated charges whatsoever, excluding network bearer charges.

This clause was introduced in version 6.1.
Members were given until 2008-10-01 to withdraw existing non-compliant adverts, but new adverts were required to comply immediately.

7. Children’s services

7.1. Parental permission

7.1.1. The terms and conditions for children’s services must indicate that the service should only be used with the permission of the child’s parent or guardian.

This clause was introduced in version 3.2.

7.1.2. The terms and conditions for children’s services must indicate that the service should only be used with the agreement of the person responsible for paying the phone bill.

This clause was introduced in version 3.2.

7.2. Prohibited practices

7.2.1. Children’s services must not contain anything that is likely to result in harm to children or which exploits their credulity, lack of experience or sense of loyalty.

This clause was introduced in version 3.2.

7.2.2. Children’s services must not include anything that a reasonable parent would not wish their child to hear or learn about in this way.

This clause was introduced in version 3.2.

7.2.3. Children’s services must not involve an invasion of privacy of any child.

This clause was introduced in version 3.2.

7.2.4. Children’s services must not unduly encourage children to ring or procure other premium rate services or the same service again.

This clause was introduced in version 3.2.

7.2.5. Promotional material for children’s services must not make use of adult themes or adult material.

This clause was introduced in version 3.2.

8. Adult services

8.1. Required practices

8.1.1. Any adult service must be clearly indicated as such in any promotional material and advertisements.

This clause was introduced in version 3.2.

8.1.2. Promotions for adult services must be in context with the publication or other media in which they appear. Services should be in context with the advertising material promoting them. The content of a service should not be contrary to the reasonable expectation of those responding to the promotion.

This clause was introduced in version 3.2.

8.1.3. Members must take reasonable steps to ensure that only persons of 18 years of age or older have access to adult content services. Explicit confirmation of a user's age must be obtained prior to the delivery of an adult content service.

This clause was introduced in version 3.2.

8.1.4. Marketing messages (including commercial messages) may no longer be sent to a customer of an adult service if that customer has not made use of the service during the preceding three months. This is to prevent the accidental marketing of such services to children as a result of a recycled telephone number.

This clause was introduced in version 5.7.

In version 11.6, the words in parentheses were changed from "including commercial communications" to "including commercial messages" so that this clause uses the defined term "commercial messages" instead of "commercial communications", which is not defined.

8.1.5. A marketing message sent to initiate or re-initiate adult services may not:

- (a) include any graphical or photographic content that includes full frontal images or portrayal of intimate parts of the body; or
- (b) include any words or phrases that may be considered profane, including common popular or slang terms for excretory functions, sexual activity and genitalia; or
- (c) include any links to any content described in (a) or (b).

This clause was introduced in version 8.0.

It is intended to govern how explicit ongoing marketing messages may be for adult services. This is to provide additional protections against accidental marketing of adult services to children, for instance as a result of prematurely recycled SIMs.

8.2. Prohibited practices

8.2.1. Adult services must not contain references that suggest or imply the involvement of children.

This clause was introduced in version 3.2.

8.2.2. Promotions for adult services must not appear in publications or other media specifically targeted at children.

This clause was introduced in version 3.2.

8.2.3. Adult services may not be marketed via direct communications with a customer of non-adult services, unless that customer has explicitly given permission for such marketing to take place and the customer has confirmed that they are, in fact, an adult.

This clause was introduced in version 8.0.
It is intended to provide additional protection against accidental marketing of adult services to children, for instance as a result of prematurely recycled SIMs.

9. Competitions

9.1. Provision of information

9.1.1. The total cost for any entry into a promotional competition shall not exceed R1.50.

This clause was introduced in version 11.0, in order to bring the Code in-line with the Consumer Protection Act.

9.1.2. Any promotional material for a competition service must clearly display the full cost to enter the competition and any cost to the user to obtain the prize.

This clause was introduced as clause 9.1.1 in version 3.2.
It was renumbered to 9.1.2 in version 11.0.

9.1.3. Any promotional material for a competition service must include details of how the competition operates.

This clause was introduced as clause 9.1.2 in version 3.2.

This clause was introduced as clause 9.1.3 in version 3.2.
It was renumbered to 9.1.4 in version 11.0.

9.1.5. Promotional material must clearly state any information which is likely to affect a decision to participate, including:

- (a) the closing date;
- (b) any significant terms and conditions, including any restriction on the number of entries or prizes which may be won;
- (c) an adequate description of prizes, and other items offered to all or a substantial majority of participants, including the number of major prizes;
- (d) any significant age, geographic or other eligibility restrictions;
- (e) any significant costs which a reasonable consumer might not expect to pay in connection with collection, delivery or use of the prize or item;
- (f) the entry mechanism and workings of the competition;

This clause was introduced as clause 9.1.4 in version 3.2.
It was amended in version 5.7 with the addition of part (f).
It was renumbered to 9.1.5 in version 11.0.
In version 11.6, part (g) was added, to align this section more closely with the requirements of the CPA.

9.1.6. The following additional information must also be made readily available on request, if not contained in the original promotional material:

- (a) how and when prize-winners will be informed;
- (b) the manner in which the prizes will be awarded;
- (c) when the prizes will be awarded;
- (d) how prize-winner information may be obtained;

- (e) any criteria for judging entries;
- (f) any alternative prize that is available;
- (g) the details of any intended post-event publicity;
- (h) any supplementary rules which may apply;
- (i) the identity of the party running the competition and responsible for the prizes.

This clause was introduced as clause 9.1.5 in version 3.2.
It was renumbered to 9.1.6 in version 11.0.

9.1.7. Competition services and promotional material must not:

- (a) use words such as 'win' or 'prize' to describe items intended to be offered to all or a substantial majority of the participants;
- (b) exaggerate the chance of winning a prize;
- (c) suggest that winning a prize is a certainty;
- (d) suggest that the party has already won a prize and that by contacting the promoter of the competition, that the entrant will have definitely secured that prize.

This clause was introduced as clause 9.1.6 in version 3.2.
It was renumbered to 9.1.7 in version 11.0.

9.1.8. Any customer entering an IVR, SMS or MMS competition after the competition has closed must be sent a reply indicating that the competition has already closed. This is in order to prevent a customer from spending unnecessary time on a call or submitting repeated entries for a competition after the closing date or time.

This clause was introduced as clause 9.1.7 in version 5.7.
It was renumbered to 9.1.8 in version 11.0.

9.1.9. If a competition closes at a specific time of day, then that time must be clearly communicated to all entrants. For live television competitions, an appropriate count down or advanced warning must be provided.

This clause was introduced as clause 9.1.8 in version 5.7.
It was renumbered to 9.1.9 in version 11.0.

9.2. Children's competitions

9.2.1. Competition services that are aimed at, or would reasonably be expected to be particularly attractive to children must not offer cash prizes.

This clause was introduced in version 3.2.

9.2.2. Competition services that are aimed at, or would reasonably be expected to be particularly attractive to children must not feature long or complex rules.

This clause was introduced in version 3.2.

9.3. General provisions

9.3.1. Competition services must have a specific closing date, except where there are instant prize-winners. An insufficient number of entries or entries of inadequate quality are not acceptable reasons for changing the closing date of a competition or withholding prizes. Once the closing date for a competition is reached, the advertised prizes must be awarded, notwithstanding the number of entries.

This clause was introduced in version 3.2.

9.3.2. Prizes must be awarded within 28 days of the closing date, unless a longer period is clearly stated in the promotional material.

This clause was introduced in version 3.2.

9.3.3. All correct entries must have the same chance of winning.

This clause was introduced in version 3.2.

10. Contact and dating services

10.1. Provision of information

10.1.1. Contact and dating services with an ongoing incremental cost, must, at reasonable intervals, inform the customer of any additional costs, and must require the customer to actively confirm their continued participation.

This clause was introduced in version 3.2.

10.1.2. Providers of contact and dating services must warn users of the service of the risks involved when contact information is given out to other individuals and must give clear advice on sensible precautions to take when meeting people through such services.

This clause was introduced in version 3.2.

10.1.3. Providers of contact and dating services must ensure that customers' contact information is duly protected and not publicly available.

This clause was introduced in version 3.2.

10.1.4. Providers of contact and dating services must obtain explicit consent from a customer prior to making his or her contact information available to third parties.

This clause was introduced in version 3.2.

10.1.5. Promotional material for contact and dating services must make clear any restrictions on the location, gender and age range of callers to the service.

This clause was introduced in version 3.2.

10.2. Restrictions on the service

10.2.1. Members must take reasonable steps to ensure that users of contact and dating services are authorised by the bill-payer to use that service.

This clause was introduced in version 3.2.

10.2.2. Providers of contact and dating services must take reasonable steps to ensure that no children use the services.

This clause was introduced in version 3.2.

10.3. Removal and deactivation of services

10.3.1. When so requested by a customer, the provider of a contact and dating service must ensure that the customer's details are removed from the service at the earliest opportunity and in all cases within 24 hours.

This clause was introduced in version 3.2.

11. Subscription services

11.1. Promotion of subscription services

11.1.1. Promotional material for all subscription services must prominently and explicitly identify the services as "subscription services". This includes any promotional material where a subscription is required to obtain any portion of a service, facility, or information promoted in that material.

The first sentence of this clause was introduced in version 3.2.
The second sentence was added in version 7.0.

11.1.2. An advert for a content subscription service which includes examples of the content provided as part of that service must include at least two examples of that content clearly displayed, except as provided for in 11.1.3.

This clause was added as clause 11.1.3 in version 7.0.
In version 7.4, the word "content" was added before "subscription service". This was a technical change, to address the accidental application of this clause to all subscription services, instead of just content subscription services as intended.
It was renumbered to 11.1.2 in version 9.0, and the words "**except as provided for in 11.1.3**" were added.

11.1.3. For a television advert, if, during the voice over:

- (a) the fact that a service is a subscription service, and
- (b) the price and frequency of the billing

is clearly announced in the language of the advert, then that advert may promote a single content item, provided that the key word is generic and not linked to the specific content item.

This clause was added in version 9.0. This addition, and the modification of the above clause were intended to eliminate the need to display multiple content items, as long as the voice over is clear enough.

11.1.4. Subscription services with different billing frequencies should not have a subscription mechanism likely to cause a customer to accidentally subscribe to a more frequent service.

This clause was introduced as clause 11.1.5 in version 3.2.
It was renumbered to 11.1.6 in version 7.0.
It was renumbered to 11.1.4 in version 9.0.

11.1.5. Once a customer has subscribed to a subscription service, neither the amount and frequency of the charges nor the frequency of the service may be increased without the customer's explicit permission.

This clause was introduced as clause 11.1.8 in version 4.3
It was renumbered to 11.1.9 in version 4.7.
It was renumbered to 11.1.10 in version 5.2.
It was renumbered back to 11.1.9 in version 7.0.
It was renumbered to 11.1.5 in version 9.0.

11.1.6. Where possible, billing for a subscription service must indicate that the service purchased is a subscription service.

This clause was introduced as clause 11.1.3 in version 3.2.
It was amended in version 4.3, with "Where **possible**" replacing "Where **feasible**".
It was renumbered to 11.1.4 in version 7.0.
It was renumbered to 11.1.6 in version 9.0.

11.1.7. Promotions for subscription services must not appear in publications or other media specifically targeted at children.

This was introduced as clause 11.4.1 in version 6.1.
It was renumbered to 11.7.1 in version 7.0.
It was renumbered to 11.1.7 in version 9.0.

11.1.8. It is acceptable to use the "@" sign in place of "at" in any activation message, welcome message or similar communication. Similarly, "u" may be used in place of "you", "b" may be used in place of "be", and "r" may be used in place of "are".

This clause was introduced in version 9.0 in order to provide clarity on alternate typography.

11.1.9. For services that are not billed on a daily, weekly or monthly basis, the pricing should be of the format "RX every [time period]".

This clause was introduced in version 11.0.

11.2. Subscription process

11.2.1. Customers may not be automatically subscribed to a subscription service as a result of a request for any non-subscription content or service. Customers may not automatically be subscribed to a subscription service without specifically opting in to that service.

The first sentence of this clause was introduced as clause 11.1.4 in version 3.2.
It was renumbered to 11.1.5 in version 7.0.
The second sentence was added in version 8.0. It is intended to specifically prohibit opt-out campaigns. It is noted that this will also be a prohibited practice under the Consumer Protection Act.
It was renumbered to 11.2.1 in version 9.0.

11.2.2. Any request from a customer to join a subscription service must be an independent transaction, with the specific intention of subscribing to a service. A request from a subscriber to join a subscription service may not be a request for a specific content item and may not be an entry into a competition or quiz.

The first sentence of this clause was introduced as clause 11.1.2 in version 3.2.
In version 4.6, the following sentence was added "A request from a subscriber to join a subscription service may not be bundled with a request for a specific content item."
In version 6.1, the words "bundled with" were deleted.
In version 7.4, the last eleven words "and may not be an entry into competition or quiz" were added. WASPA had received a large number of complaints from consumers who claimed to have been tricked into subscribing to services while entering competitions or quizzes. The modification was intended to prohibit the practice of "bundling" competitions/quizzes and subscription services. Requiring a specific, separate request from a customer to be subscribed to a service prevents the automatic subscription to a service, when a customer intended only to participate in a quiz or competition.
It was renumbered to 11.2.2 in version 9.0.

11.2.3. Notwithstanding the above clause, it is permissible for a customer to be included as a participant in a promotional draw or competition as an additional benefit to being a subscription service customer. In such a case, it must be reasonably clear to the customer that the promotional draw or competition is ancillary to the subscription service, and the process of joining the subscription service may not be disguised as an entry into a competition.

This clause was introduced in version 10.0. The original intent of clause 11.2.2 was to prevent customers from being tricked into joining a subscription service when they thought they were entering a competition. However, it

was not intended to prevent someone who has deliberately joined a subscription service from being included in a promotional draw. This clause is intended to clarify this.
In version 11.0, the word "reasonably" was inserted near the beginning of the second sentence.

11.2.4. Members must ensure that children accessing subscription services confirm that they have permission from a parent or guardian do to so.

This clause was introduced as clause 11.1.6 in version 3.2.
It was renumbered to 11.1.7 in version 7.0.
It was renumbered to 11.2.3 in version 9.0.
It was renumbered to 11.2.4 in version 10.0.

11.2.5. If a subscription service is initiated by a customer sending an SMS to the service provider, then a separate confirmation message must then be sent to the customer's mobile handset. Only once the customer has followed the activation instructions in the confirmation message can they be subscribed to the subscription service.

This clause was introduced in version 11.6. Codecom had decided that the WASPA Code should be amended to require double opt-in for subscription services initiated via SMS (and well as the existing requirement for double opt-in for services initiated via a browser).

11.2.6. The confirmation message described in 11.2.5 must include the subscription service information in the following format, flow and wording:

[service activation instructions and/or activation code]. You'll be subscribed to [XYZ service] from [name of service provider] at [cost of service and frequency of billing].

This clause was introduced as 11.1.10 in version 7.0.
Members were given until 2009-04-10 to comply with this clause.

In version 7.4, the last sentence of mandatory wording was removed. This said "Help? Call [call centre number + "(VAS)" if applicable]. To unsubscribe, [unsubscribe instructions]." The additional help instructions were removed as unnecessary, given that they must also be provided in the welcome message.

It was renumbered to 11.2.5 in version 9.0, and abbreviations replace with full words, in line with the defaults of 11.1.8.

In version 11.6, this clause was renumbered to 11.2.6, and all of the text prior to the message template was replaced with the current wording. This change was done, along with the insertion of the preceding clause, to effect a double opt-in requirement for all subscription services.
Prior to version 11.6, the text read as follows: "Where a subscription service is initiated by a user replying to a message from a service provider where that message contains instructions for activating a service and/or where that message contains an activation code that when inputted by the user activates a subscription service, then that message, along with the subscription initiation instructions and/or activation code, must also include the subscription service information in the following format, flow and wording:"

11.2.7. If the network is already undertaking any of the verification steps required in this chapter of the Code, then it is not necessary for members to repeat those particular steps again.

This clause was introduced as clause 11.2.6 in version 11.0.
It was renumbered to 11.2.7 in version 11.6.

11.3. Subscription initiated via a browser (web or WAP)

Heading amended from "via web or WAP" to "via a browser (web or WAP)" in version 11.0.

11.3.1. If a subscription service is initiated by entering a customer's mobile number on a web page or WAP site, then a separate confirmation message must be sent to the customer's mobile handset in order to prove that the number entered matches the customer's mobile handset number. This message may either:

- (a) contain a PIN which is then confirmed or validated on the web page, or
- (b) contain the name of the service, an explanation of the confirmation process, and a URL with a unique identifier, which, when clicked, validates the handset number.

This clause was introduced as 11.1.11 in version 7.4. Although this was already current practice for most WASPs, there were regular complaints from consumers that they had been subscribed to a service without having entered their number anywhere. There had also been reported cases where no verification of the activation code had been done, meaning that anyone could have entered any activation code to sign up someone else to a service. The addition of this clause was intended to avoid any possibility whatsoever of a third-party entering a subscriber's number on a web site or WAP page and causing that subscriber to be subscribed to a service without their consent.

In version 8.0, "service can be initiated by" was replaced with "service is initiated". This changes limits this clause to apply only to services which are actually initiated in this way.

The clause was renumbered to 11.2.4 in version 9.0.

In version 9.0, the current text replaced the following: "If a subscription service is initiated by entering a customer's mobile number on a web page or WAP site, then a separate confirmation must be obtained from that customer's mobile handset before any billing may take place for that service."

The changes to the wording were intended to clarify the process for confirming a customer's number.

This clause was renumbered to 11.3.1 in version 10.0 and "PIN number" was replaced with just "PIN".

In version 11.0, the words "the name of the service, an explanation of the confirmation process, and" were inserted in (b).

11.3.2. For any subscription services that are initiated via WAP, it is a requirement for the service provider who has a direct contract with the network operator to display a WAP confirmation page to the potential subscriber. This confirmation page must be displayed after the subscriber has first indicated an interest in the subscription service by clicking on a "join" or similar link.

This clause was introduced in version 9.0 in order to introduce a specific process for WAP confirmation of subscription services.

Members were given until 2010-07-01 to comply with this clause.

In version 10.0, this clause was renumbered to 11.3.2, and the words "and which are not confirmed by the customer using the validation process set out in 11.2.4," removed from between "WAP" and "it is a requirement". The word "be" was also inserted in "must be displayed" -- this omission was a typo.

This was because the confirmation page needs to apply even if the mobile number is confirmed via a PIN or URL. Otherwise anyone could enter someone else's mobile number on a page, and the first the owner of the number would know is when they got a message that said "Click this link to confirm". That would cause problems. Thus, it made sense to have a confirmation page requirement for **all** WAP-initiated services. This amendment also brought this clause in line with Vodacom's business rules.

11.3.3. The WAP confirmation page must display the following information in a clear and easy to read manner:

- (a) The name of the service and an indication that it is a subscription service
- (b) The price and frequency of billing
- (c) A phone number for customer support

This clause was introduced in version 9.0 as clause 11.3.1.

It was renumbered to 11.3.3 in version 10.0 and the words "and an indication that it is a subscription service" added.

11.3.4. Where it is necessary for a consumer to confirm that their MSISDN may be made available to an application, this may be done by including the following wording on the WAP confirmation page:

[Application name] has requested that your mobile number be made available.

This clause was introduced in version 9.0 as clause 11.3.2.

It was renumbered to 11.3.4 in version 10.0.

11.3.5. The information listed in 11.3.3 and 11.3.4 above must be presented as text and not as an image.

This clause was introduced in version 9.0 as clause 11.3.3.
It was renumbered to 11.3.5 in version 10.0 and "in 11.3.3 and 11.3.4" were inserted before the word "above".

11.3.6. The WAP confirmation page described above must also present a confirmation button. It must be clearly communicated to the customer on the confirmation page that clicking the confirmation button will initiate a subscription service.

This clause was introduced in version 9.0 as clause 11.3.4.
It was renumbered to 11.3.6 in version 10.0.

11.3.7. The WAP confirmation page may not contain any marketing messages or other content that is likely to distract the customer from the required confirmation information and process.

This clause was introduced in version 9.0 as clause 11.3.5.
It was renumbered to 11.3.7 in version 10.0.

11.3.8. The WAP confirmation page must offer all languages used in the promotional material for that service.

This clause was introduced in version 9.0 as clause 11.3.6.
It was renumbered to 11.3.8 in version 10.0.

11.4. Subscription initiated via USSD

11.4.1. After selecting the required service, the customer must be presented with a confirmation step. The subscription service may not begin until the customer follows the confirmation instructions. The following information must be presented as part of the confirmation step:

- (a) The name of the subscription service;
- (b) The cost of the subscription service and the frequency of the charges;
- (c) Instructions to follow to confirm the subscription (e.g. "1 - Confirm, 2 - Cancel")

This clause was introduced in version 10.0 to cover USSD-initiated subscriptions, which were not previously covered in the Code.

11.5. Welcome message

11.5.1. Once a customer has subscribed to a subscription service, a notification message must immediately be sent to the customer. This welcome message should not be mistaken for an advert or marketing message. The customer may not be charged for this message.

11.5.2. The welcome message must start with the text "Welcome: " and must also be a clear notification of the following information, in the following order:

- (a) The name of the subscription service;
- (b) The cost of the subscription service and the frequency of the charges;
- (c) Clear and concise instructions for unsubscribing from the service;
- (d) The service provider's telephone number.

Clauses 11.5.1 and 11.5.2 were introduced as clause 11.1.7 in version 3.2 and originally read: "Once a customer has subscribed to subscription service, a notification message must be sent to the customer containing the following information: (a) The cost of the subscription service and the frequency of the charges; (b) Clear and concise instructions for unsubscribing from the service; (c) The member's contact information.

In version 4.3, "(c) The service provider's contact information" replaced "(c) The member's contact information".

In version 4.6, "(a) The name of the subscription service" was added (and the other point renumbered).

In version 4.8, "(d) The service provider's telephone number" replaced "(d) The service provider's contact information."

In version 6.2, the word "immediately" was inserted, as was the second sentence of the clause ("This welcome message...").

It was renumbered to 11.1.8 in version 7.0.

It was renumbered to 11.4.1 in version 9.0.

In version 10.0, the clause was split into the current two clauses, amended slightly and renumbered to 11.5.1 and 11.5.2. This change was primarily to ensure that welcome messages are clearly indicated as such by beginning with the word "welcome".

In version 11.6, the words "in the following order" were added. This was a compromise between prescribing specific wording for the welcome message, and leaving the message entirely up to the service provider.

11.6. Reminder messages

11.6.1. A monthly reminder SMS must be sent to all subscription service customers. This reminder must be sent within 30 days of the initial notification message, and once per calendar month thereafter. The customer may not be charged for these reminder messages.

This was originally introduced as clause 11.1.8 in version 4.7 and read: "11.1.8. A monthly reminder SMS must be sent to all content subscription service customers containing the following information: (a) The name of the subscription service; (b) The cost of the subscription service and the frequency of the charges; (c) The service provider's contact information.

It was amended in version 4.8 to say "The service provider's telephone number" instead of "The service provider's contact information."

It was amended in version 6.1 with "must be sent to all subscription service customers" replacing "must be sent to all content subscription service customers" (the word "content" was removed).

Members were given until 2008-10-01 to comply with this amendment (i.e. implementing reminders for non-content services).

The current version of the clause as clause 11.2.1 was introduced in version 7.0.

Members were given until 2009-04-10 to comply with this clause.

This clause was renumbered to 11.5.1 in version 9.0.

This clause was renumbered to 11.6.1 in version 10.0 and the last sentence added.

11.6.2. The reminder messages specified in 11.6.1 must adhere exactly to the following format, flow, wording and spacing:

Reminder: You are subscribed to [name of service provider] [content/service description].
Cost [cost of service and frequency of billing]. SMS HELP [optional keyword] to [short code]/call [call centre number + "(VAS)" if applicable]. To unsubs, sms STOP [service keyword] to [short code].

or

Reminder: You are subscribed to [name of service provider] [content/service description].
Cost [cost of service and frequency of billing]. For help call [call centre number + "(VAS)" if applicable]. To unsubs, sms STOP [service keyword] to [short code].

This was originally introduced as part of clause 11.1.8 in version 4.7, see the above note.

It was supplemented by the addition of clause 11.1.9 in version 5.2, which read: "The monthly reminder SMS must adhere to the following format: (a) The monthly reminder must begin with either "Reminder: You are a member of NAME OF SERVICE" or "You are subscribed to NAME OF SERVICE". (b) Any marketing for a new

service must appear after the cost and frequency of the existing service and the service provider's telephone number."

Members were given until 2007-08-01 to comply with this clause.

It was further supplemented by clause 11.1.11 in version 6.2, which stated: "The format of both the initial notification message and the monthly reminder should comply with the relevant sections of the WASPA Advertising Rules." This clause was removed in version 7.0.

It was introduced in this form (without the second wording option) as clause 11.2.2 in version 7.0.

Members were given until 2009-04-10 to comply with this clause.

In version 7.4, the second option for the wording format was added. This change simply made the "sms HELP [optional keyword] to [short code] or" portion of the message optional.

This clause was renumbered to 11.5.2 in version 9.0, and abbreviations replace with full words, in line with the defaults of 11.1.8.

This clause was renumbered to 11.6.2 in version 10.0 and some minor edits to the formatting of the text done. These changes were to ensure that reminder messages are clearly indicated as such by beginning with the word "reminder" and to reduce the number of characters required by the message.

11.6.3. The entire reminder message must be sent in a single SMS, may not contain any line breaks or carriage returns and may not include any additional characters other than those specified in 11.5.2.

This clause was introduced as 11.2.3 in version 7.0.
Members were given until 2009-04-10 to comply with this clause.
It was renumbered to 11.5.3 in version 9.0.
It was renumbered to 11.6.3 in version 10.0.

11.6.4. The content/service description must be text describing the content, promotion or service (e.g. "tones" or "poems"). This text must not be worded in a way that attempts to deceive or mislead the customer from the purpose of the reminder which is to inform the user that they are subscribed to a service.

This clause was introduced as 11.2.4 in version 7.0.
Members were given until 2009-04-10 to comply with this clause.
It was renumbered to 11.5.4 in version 9.0.
It was renumbered to 11.6.4 in version 10.0.

11.6.5. The cost of service and frequency of billing must use the format "RX/day", "RX/week" or "RX/month" (or RX.XX if the price includes cents). No abbreviations of "day", "week" or "month" may be used.

This clause was introduced as 11.2.5 in version 7.0.
Members were given until 2009-04-10 to comply with this clause.
It was renumbered to 11.5.5 in version 9.0.
It was renumbered to 11.6.5 in version 10.0.

11.6.6. For services that are not billed on a daily, weekly or monthly basis, the pricing should be of the format "RX every [time period]".

This clause was introduced in version 11.0.

11.6.7. The text "(VAS)" must be included after any VAS-rated phone number. It does not need to be included after phone numbers which are not VAS-rated.

This clause was introduced as 11.2.6 in version 7.0.
Members were given until 2009-04-10 to comply with this clause.
It was renumbered to 11.5.6 in version 9.0.
It was renumbered to 11.6.6 in version 10.0.

It was renumbered to 11.6.7 in version 11.0.

This clause represented existing best practice in the industry at the time of introduction, but on occasion WASPA had difficulty obtaining logs from a WASP for the purposes of investigating a complaint. This clause was intended to make it explicitly compulsory to provide logs when requested to do so. Consequently, the failure to provide logs when asked to do so is now a breach of the Code in its own right.
It was renumbered to 11.9.2 in version 9.0.
It was renumbered to 11.10.2 in version 10.0.

Should the complainant fail to provide any additional information, the secretariat may close the complaint due to lack of evidence without it proceeding to adjudication.

This clause was added in version 10.0 to prevent cases, where there is clearly inadequate information provided in a complaint, from proceeding to adjudication.

14.4. Sanctions

14.4.1. An adjudicator finding prima facie evidence that any member may have breached clause 3.1.2 of the Code of Conduct must request that WASPA refer the breach to the relevant statutory or regulatory authority, unless that authority has already made a ruling on that particular case. If the relevant authority has already made a ruling on that particular case, then the adjudicator may find a breach of clause 3.1.2.

This clause was added in version 10.0 to try to avoid adjudicators making rulings on issues outside of the scope of WASPA's Code of Conduct, that would better be handled by other authorities. The intention of this change is for the adjudicator to be required to refer a matter involving lawful conduct to the relevant authority to address, unless that authority has already reviewed that particular case. Specifically, "that particular case" is intended to mean that the case involves the same member of WASPA, and exactly the same service or advertising.

14.4.2. For all other clauses of the Code, possible sanctions that may be imposed on a member found to be in breach of the Code of Conduct are one or more of the following:

- (a) a requirement for the member to remedy the breach;
- (b) a formal reprimand;
- (c) an appropriate fine on the member, to be collected by WASPA;
- (d) suspension of the member from WASPA for a defined period;
- (e) expulsion of the member from WASPA;
- (f) a requirement for the member to disclose the identity of any information provider found to be acting in breach of this Code of Conduct;
- (g) a requirement for the member to suspend or terminate the services of any information provider that provides a service in contravention of this Code of Conduct;
- (h) a requirement to withhold a specified amount or portion of money payable by the member to the information provider.

This clause was introduced as 13.4.1 in version 3.2.
It was amended in version 4.3 to include parts (g), (h) and (i).
It was renumbered to 14.4.1 in version 9.0.
It was renumbered to 14.4.2 in version 10.0 and the initial part of the clause "For all other clauses of the Code, " was added.
In version 11.6, one of the potential sanctions was deleted from this list (and the remainder renumbered). The deleted text read: "(d) a requirement, in appropriate circumstance, for the member to pay reasonable and valid claims for compensation;" This change was intended to prevent adjudicators from awarding compensation to complainants. It was felt that this falls outside of the intentions of the WASPA Code.

14.4.3. When determining sanctions, the adjudicator should take note of 14.3.21, and specify any sanctions that will not be suspended if an appeal is lodged. Sanctions that can be specified in this way are limited to those that are intended to prevent future harm and include:

- (a) Sanctions requiring a member to amend, suspend, or terminate a service being offered in breach of the Code of Conduct;
- (b) Any sanctions imposed as a result of the failure of a member to comply with previous sanctions, as specified in 14.3.22.

This clause was introduced as 13.4.2 in version 4.6.
It was renumbered to 14.4.2 in version 9.0.
It was renumbered to 14.4.3 in version 10.0.
In version 11.0, the words "are limited to those that are intended to prevent future harm and" were inserted to clarify which types of sanctions apply while an appeal is in process.

14.4.4. In addition, possible sanctions against a member in breach of the Code include advising the relevant network operators or that member's aggregator to do one or more of the following:

- (a) block a member's access to a specific number for a defined period;
- (b) block a member's access to a specific category of service for a defined period;
- (c) terminate a member's access to a specific number;
- (d) terminate a member's access to a specific category of service;
- (e) withhold a specified amount or portion of money payable by the network operator to that service provider;

- (f) pay some or all of withheld funds to WASPA, as an appropriate fine on the service provider;
- (g) issue a blanket refund to the customers of a service found to be in breach of the Code of Conduct.

This clause was introduced as clause 13.4.2 in version 3.2.
It was amended in version 4.3 to include part (g).
It was renumbered to 13.4.3 in version 4.6.
It was renumbered to 14.4.3 in version 9.0.
It was renumbered to 14.4.4 in version 10.0 and the words "or that member's aggregator" added.

14.4.5. When considering appropriate sanctions, the adjudicator should consider the member's use of the checking service described in section 14.8. Where a member has had a service or advertisement checked by WASPA this should be taking as a mitigating factor when considering sanctions, provided that the service or advertisement has not been subsequently amended so as not to comply with the Code.

This clause was introduced as 13.4.4 in version 8.0.
It is intended to deal with the potential introduction of a checking service, as noted in section 13.8.
It was renumbered to 14.4.4 in version 9.0.
It was renumbered to 14.4.5 in version 10.0.

14.4.6. Where a service is provided by one WASPA member using the facilities of another member, if the member providing these facilities has taken reasonable steps in response to any alleged breach of the Code by the member providing the service, this must be considered as a significant mitigating factor when considering any sanctions against the member providing the facilities.

This clause was introduced in version 9.0 as clause 14.4.5 largely to support clause 3.9.3.
It was renumbered to 14.4.6 in version 10.0.

14.4.7. For the avoidance of doubt, no sanction may be applied to a member who has not been given an opportunity to respond to a complaint.

This clause was introduced in version 9.0 as clause 14.4.6 to avoid a situation where an adjudicator sanctions an SP without that SP having had an opportunity to respond.
It was renumbered to 14.4.7 in version 10.0.

14.4.8. If a sanction specifies that a member be suspended from WASPA for a defined period, then this means that the Secretariat shall:

- (a) update the member's status to reflect as "suspended" on the WASPA web site;
- (b) notify the relevant network operators of the member's suspension and recommend the suspension of WASP services to that member for the period specified in the ruling; and
- (c) notify WASPA's general membership of the member's suspension.

This clause was introduced in version 11.0, to spell out exactly what a sanction of "suspension" entails.

14.5. Information provider notices

14.5.1. If the adjudicator has determined that an information provider is operating in breach of the Code of Conduct, and the adjudicator is of the reasonable opinion that the information provider may persist in such breach, whether through the member against whom the complaint was lodged or another member, the adjudicator may instruct the secretariat to issue a notice to WASPA's members.

This clause was introduced as 13.5.1 in version 4.3.
It was renumbered to 14.5.1 in version 9.0.

14.5.2. The notice referred to in 14.5.1. must clearly identify the information provider and the relevant breach or breaches of the Code of Conduct, and must specify a date from which the notice applies.

This clause was introduced as 13.5.2 in version 4.3.
It was renumbered to 14.5.2 in version 9.0.

14.5.3. Any member permitting the information provider to operate in breach of the Code of Conduct (in the same or substantially similar manner to that identified in the notice referred to in 14.5.1), after the date specified in the notice, will be automatically in breach of the same part or parts of the Code of Conduct as the information provider. Such members will be subject to sanctions determined by the adjudicator in accordance with section 14.4, read in conjunction with clause 14.3.15.

This clause was introduced as 13.5.3 in version 4.3.
It was renumbered to 14.5.3 in version 9.0.
In version 11.6 of the Code "clause 14.3.15" replaced "section 14.3.15" so that "clause" (x.x.x) and "section" (x.x) are used consistently in the Code.

14.6. Appeal process

14.6.1. Any member found to have breached the Code of Conduct by an adjudicator has the right to appeal for a review of the adjudicator's decision, and/or a review of the sanctions imposed by the adjudicator.

This clause was introduced in version 9.0 based on requests from SPs to present their appeals in person.

14.6.3. A member requesting an appeal must pay an appeal fee. The fee may vary depending on the type of appeal requested. Appeal fees will be set by WASPA's Management Committee in consultation with WASPA's membership. The member must pay any applicable appeals fee within five working days of receipt of invoice.

This clause was introduced in version 9.0. Until this point, the appeals fee was not specified in the Code itself, but was agreed by a resolution at a WASPA General Meeting. This clause made the fee a part of the Code itself.

14.6.4. Once the secretariat has been notified that a member wishes to appeal a decision, that member has fifteen working days to supply the secretariat with any additional information it deems relevant to the complaint. An extension to this time period may be given to the member at the discretion of the WASPA Secretariat.

This clause was introduced as clause 13.5.2 in version 3.2.
It was renumbered to 13.6.2 in version 4.3, and "ten working days" replaced "five working days".
In version 8.0, "fifteen working days" replaced "ten working days". The last sentence was also added reflect current practice, and to formally address situations where a WASP needs more time to respond.
